Dear Sir/Madam,

Your recent advert on the hasanbuilders.com website for a “Front End Developer” caught my eye as it appeared to be a perfect match for my experience, skills and future potential.

I can maintain your company's reputation for service, professionalism and legal compliance.

In your job description you say that applicants should have knowledge about Javascrpt, React.JS, Redux, Node.JS. I know all of these Tools & technologies. I am interested to come as someone who is honest, dedicated to work, and applies new tools & technology.

On a personal level, I am someone who will always provide you with good service with the best productivity. Greater details of my accomplishments and achievements can be found in my resume that is attached in the file.

If you feel I have the potential then please do not hesitate to contact me to arrange an interview.

Thank you very much for taking time to review my application.

Yours sincerely,
